## Taking Diabetes to School Book

By: Kim Gosselin

Illustrated by: Moss Freedman

Grade level: Pre-K-3. This book is part of The Special Kids in School Series and is a must-have for every counselor, teacher, school nurse, parent, or caregiver. This beautifully illustrated and fun-to-read storybook tells the story of Jayson, a kid living with diabetes.

When read aloud, other children can start to identify why a peer with diabetes may be treated differently and begin to empathize with the peer. In addition, children with diabetes or children who have conditions that set them apart as being different begin to feel accepted and safe. Book includes a Kid Quiz to reinforce new information and Ten Tips for Teachers to provide additional facts and ideas for teacher use. 32-pages, softcover.
