The Wisconsin Lions Foundation is committed to fighting the diabetes epidemic by raising awareness and educating communities and individuals about their risk. WLF and our partners have created a comprehensive program centered around creating awareness about diabetes through prevention, risk reduction, and other diabetes resources. Please fill out this form to order diabetes awareness materials and return to the WLF office.

About the Books

Join Andrew, a five-year-old boy from Massachusetts, as he guides us through his first year living with type 1 diabetes. *Year One with Type One* begins with Andrew's stay at the Children's Hospital and continues with his new routine at home. Through Andrew's eyes, we discover how he manages his condition while also managing to find fun along the way. In this story, Andrew proves that having diabetes doesn't (and shouldn't) hold him back.

Andrew returns in *T'was My Type of Christmas* to talk about the struggles of a type 1 diabetic during the holiday season; however, he knows others can relate which makes a big difference. From the reindeer and elves, to Santa himself, the characters in this sequel share many of Andrew's wonderful qualities. They responsibly manage their type 1 diabetes, know how to enjoy themselves, and love preparing for their favorite day of the year.
